Subject: ISICO 2019 notification for paper 86

Date: Friday, 17 May 2019 14.17.15 Eastern Indonesia Time

From: ISICO 2019

To: Dedi Iskandar Inan

Dear Dedi Iskandar Inan,

On behalf of ISICO Scientific Committee, we are happy to inform that your paper with the following details:

Paper ID: 86
Title: mHealth Medical Record to Contribute to NonCommunicable Diseases in Indonesia

Has been ACCEPTED WITH REVISIONS for Conference Paper Presentation in ISICO 2019. Please find the reviews of your paper attached at the bottom of this e-mail. The reviews are also accessible in the Easychair system for ISICO 2019 [http://its.id/isicosubmission].

ISICO is a biannual international conference, and after presenting at ISICO, all full papers will be published under Procedia Computer Science (PCS), Elsevier which is openly accessible at www.sciencedirect.com. The current H-Index of PCS is 21, which is considerably high in the Computing-related fields. All full papers are at least double-blind, developmental reviewed by the Scientific Committee. Final acceptance of approved camera-ready papers will be contingent on incorporating reviewers' feedback to the satisfaction of the Editors-in-chief.

Please note that this status is conditional unless all the feedback from reviewers is incorporated in the final version of your full paper (camera-ready version). All authors should take the review comments carefully into account when preparing for the camera-ready version of their paper. Please note that the page limit is up to 8 (eight) pages, and the full paper format needs to follow the NEW template which can be downloaded at the following link: https://intip.in/isico2019templates, under "PROCS_ISICO_2019_Templates" folder. You may copy your text from your current file into the NEW template.

Please also note that we reserve the right to change the decision results if the remarks from the reviewers or required formatting guidelines are not respected. You will receive a detailed description of camera-ready copy preparation in a separate email message, and the details on registration are available at our website (http://isico.info).

If you have more questions, please do not hesitate to contact us at editor.isico@gmail.com. Please notify your co-authors about the reviews because only corresponding authors receive this e-mail.

Best regards,

ISICO 2019 Organizing Committees

SUBMISSION: 86
TITLE: mHealth Medical Record to Contribute to NonCommunicable Diseases in Indonesia

----------------------- REVIEW 1 --------------------
SUBMISSION: 86
TITLE: mHealth Medical Record to Contribute to NonCommunicable Diseases in Indonesia

AUTHORS: Dedi Iskandar Inan, Khin Than Win and Ratna Juita

----------- Overall evaluation -----------
I think the design needs to be evaluated on the condition of infrastructure in West Papua. Is the mobile communication bandwidth sufficient for the intended application to be used?

----------------------- REVIEW 2 --------------------
SUBMISSION: 86
TITLE: mHealth Medical Record to Contribute to NonCommunicable Diseases in Indonesia
AUTHORS: Dedi Iskandar Inan, Khin Than Win and Ratna Juita

----------- Overall evaluation -----------
1)   Captions of Figures and Tables
•   All tables should be numbered with Arabic numerals (1,2,3,….). Every table should have a caption. Headings should be placed above tables, left justified. Only horizontal lines should be used within a table, to distinguish the column headings from the body of the table, and immediately above and below the table. Tables must be embedded into the text and not supplied separately.
•   All figures should be numbered with Arabic numerals. Every figure should have a caption. All photographs, schemas, graphs and diagrams are to be referred to as figures. Line drawings should be good quality scans or true electronic output. Low-quality scans are not acceptable. Figures must be embedded into the text and not supplied separately. In MS word input the figures must be properly coded. Preferred format of figures are PNG, JPEG, GIF etc. Lettering and symbols should be clearly defined either in the caption or in a legend provided as part of the figure. Figures should be placed at the top or bottom of a page wherever possible, as close as possible to the first reference to them in the paper. Please ensure that all the figures are of 300 DPI resolutions as this will facilitate good output.
2)   Referencing Styles
References must be listed at the end of the paper. Do not begin them on a new page unless this is absolutely necessary. Authors should ensure that every reference in the text appears in the list of references and vice versa. Indicate references by [1] or [2] or [3] in the text.

----------------------- REVIEW 3 --------------------
SUBMISSION: 86
TITLE: mHealth Medical Record to Contribute to NonCommunicable Diseases in Indonesia
AUTHORS: Dedi Iskandar Inan, Khin Than Win and Ratna Juita

----------- Overall evaluation -----------
mHealth Medical Record to Contribute to NonCommunicable Diseases in Indonesia

This is an interesting article. In the field of Information Systems, health information systems have developed significantly during the last decades.

The paper is also organized clearly. There is a clear research question and followed by structured research methodology. To improve the quality of the paper, the author(s) may consider the following suggestions:

1) Format and Structure
   Please strictly follow conference template (PCS publication) available via this link: intip.in/isico2019templates

2) Introduction and Related Works
   It would be more constructive - yet informative, for the reader(s) to understand by definition NCD in the perspective of medical record

3) Research Methodology

Figure 1 and Section 4.2 demonstrate DSR from other scholars, but it is unclear whether or not the author(s) build his methodology for the research. Please highlight the research methodology - not only mentioning the work of others.

4) The to-be-developed System Architecture

What is the relation between the system architecture proposed and the research methodology presented in the previous section

5) Conclusion

The author(s) should clarify the focal point of the paper; touting the work as proof that the method can be applied to solve the problem posed in the paper, as the term, in conclusion, is used rather too broadly.

Subject: Notification on the camera ready submission
Date: Thursday, 13 June 2019 07.28.46 Eastern Indonesia Time
From: ISICO 2019
To: Dedi Iskandar Inan

Dear Dedi Iskandar Inan,

Thank you for your continuous support to ISICO 2019, and Eid Mubarak!

We would like to extend this opportunity to remind you regarding the camera-ready submission. If you have submitted your camera-ready paper to the Proceedings menu of Easychair AND submitting your CSV file, then please disregard this notification.

==

Paper   : 86
Authors : Dedi Iskandar Inan, Khin Than Win and Ratna Juita
Title   : mHealth Medical Record to Contribute to NonCommunicable Diseases in Indonesia

----

Please take the remarks carefully into account when preparing your camera-ready paper (final paper) for publication in Procedia Computer Science.

Please note that the page limit is up to 8 (eight) pages, and the full paper format needs to follow the NEW template which can be downloaded at the following link: https://intip.in/isico2019templates, under "PROCS_ISICO_2019_Templates" folder. The final paper along with other related important files are due on June 16th, 2019.

FINAL PAPER
Submission of full papers are done in 2 (two) steps:

1) Please submit MS Word file (.DOCX) belonging to your camera-ready paper (final paper) using your EasyChair author account. After logging in please click on the "Proceedings" menu and upload one file:
     * MS Word of the revised version of the paper.
      The camera-ready paper (final paper) is prepared by accommodating the remarks from reviewers in the revised version of the paper. Do Not Highlight the revision since it will be listed in a separate response letter file.
      Please rename the file of the revised version of the paper (or the camera-ready paper) with ISICO_2019_[PaperID].DOCX, e.g.: ISICO_2019_paper_1.DOCX

2) Please submit other important files relating to your camera-ready paper (final paper) using the following form: https://intip.in/isico2019files

* CSV file (.CSV) belonging to your responses toward all reviewer's remarks within which responses indicating changes to address all reviewers' remarks are described (one by one). Please find the template for response letter in the following link: https://intip.in/isico2019templates, under "RESPONSE LETTER (CSV)" folder.
      Please rename the file with ISICO_2019_response_letter_[PaperID].CSV, e.g. ISICO_2019_response_letter_1.CSV

* All figures as high quality, printable separate files

Should you have any question, please do not hesitate to contact us at editor.isico@gmail.com

We reserve the right not to publish the paper if the remarks from the reviewers or required formatting guidelines are not respected.

We greatly appreciate your cooperation in these matters. Thank you again for your contribution to ISICO 2019!

Best regards,

Editors in Chief - ISICO 2019
