Dear Dr. Inan,

Thanks for submitting your manuscript to Sustainability. We found your paper has a high repetition rate.

We attached the report, you should revise the main text. Please revise it in attachment version and resubmit the revised version via email.

Thank you for your cooperation. We are looking forward to hearing from you.

Best regards,

Ms. Matina Chen
Section Managing Editor

Dear Matina,

Thank you for your information. Yes, the similarity to our previous research is quite high. It is almost avoidable as this study is part of our larger work in DM. However, I have improved it.

Please find in the attachment our revised manuscript.

Regards,
Dedi
