About this Journal

Journal of Marine Biology is a peer-reviewed, [Open Access](#) journal that publishes original research articles as well as review articles in all areas of marine biology.

Journal of Marine Biology is archived in [Portico](#), which provides permanent archiving for electronic scholarly journals, as well as via the [LOCKSS](#) initiative. It operates a fully open access publishing model which allows open global access to its published content. This model is supported through [Article Processing Charges](#). For more information on Article Processing charges in general, [click here](#).

Journal of Marine Biology is included in many leading abstracting and indexing databases. For a complete list, [click here](#).
