**ABSTRACT**

*Sasi can be defined as a 'prohibition' to take natural resources in a coastal area outside the specified time. This study aimed to analyze species abundance and diversity of sea cucumber (*Holothuroidae*) in the area applying the sasi at Kampung Folley District Misool Timur, Raja Ampat Regency. Study was done at Tanjung Vegeta dan Tanjung Waponta that applied sasi, and 1 site in the outer area sasi which is Dermaga Kampung Folley as a comparison. Data was collected from June-July 2019 by survey method with a line*
