Dear Wan Hasiah Abdullah

We wish to submit an original research article entitled "Explanation of Marine Lake Formation at Misool Raja Ampat West Papua, Indonesia" for consideration by The Geological Society of Malaysia. We confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere.

In this paper, we report on how marine lake in Misool, Raja Ampat Papua, Indonesia was formed. This is significant because only few articles write about marine lake especially its genesis. This ecosystem is a unique and only present at several places in the world. Journal reader will enthusiastic to know this rare landform. We believe that this manuscript is appropriate for publication by The Geological Society of Malaysia because it is a sea level cases and the area in ASEAN.

We have no conflicts of interest to disclose

Please address all correspondence concerning this manuscript to me (gyspurba@gmail.com)

Thank you for your consideration of this manuscript

Sincerely

Gandi Y.S. Purba
