Dear Dr Pattiselanno

Dove Medical Press invites you to join our peer review community. Our expert reviewers greatly contribute to the high standards of the journal.

The reviewer selection team search and invite peer reviewers in the same area of medicine and science as our authors and we hope that you will be willing to provide your expert assessment on this article.

Manuscript title: Ethnozoological Study of Animal and Their Products used for Treatment and Prevention of disease practiced by Traditional Healers in Jimma Arjo District, East Wollega Zone, Western Ethiopia.

Article type: Original Research

Author: Dr Debela Abdeta

Journal: Research and Reports in Tropical Medicine

<https://www.dovepress.com/research-and-reports-in-tropical-medicine-journal>

Abstract: Back ground: Using animals for different purposes goes back to the dawn of mankind. Animals deliver different services to human beings such as source of food, medicine, clothing, draft power, transportation and other benefits. However this indigenous medicinal knowledge is being neglected and continued to be lost due to poor documentation as they are transferred from generation to generation through oral way. Therefore this study was designed to undertake cross-sectional ethno zoological survey in Jimma Arjo district from September 2020 to January 2021 on purposively selected traditional healers.

Methods: cross sectional ethnozoological survey was conducted using semi structured questionnaire among purposively selected traditional healers resided in Jimma Arjo districts. The data collected was analyzed using MS excel spread sheet. Fidelity level, use value and informant consensus factor was determined.

Results: a total of 33 animal species was found to be used for treating 40 different

human ailments confirmed by 36 informants of different age, sex, and educational background. The majority of animals (63.63%) were mammals followed by birds (15.15%). Most of the respondents were married with male age 55 years and above. For most of the healers the source of knowledge is from father (36.11%) followed by mother (19.44%). The traditional practice is accepted by (72.22%) of the community where 61.11% of the healers are not willing to transfer their knowledge to other. For most of the healers the reason to practice traditional healing was for treatment of one's family and animals. The fidelity level was found 100% for honey from *Apis mellifera* and *Trigona* spp for Asthma, *Cynopterus sphinx* for viral skin disease, and *Crucuta crucuta* for bad spirit treatment. In this study Honey from *Apis mellifera*, *Hystrix cristata*, *Sus scrofa domestica* were reported to cure different ailments.

Conclusion: this study indicated that there is a wide use of medicinal animals with their products in meeting the primary health care needs of the community in Jimma Arjo district. Therefore this ethnozoological medicinal knowledge needs to be integrated with modern medicine as potential source of effective drugs to treat various ailments.

We would appreciate your response to this email by 15 Jun 2022. If you agree to review this manuscript, your comments will be due 10 days from accepting the invitation.

Peer-review comments can only be accepted online via our reviewer system. We cannot accept downloaded manuscript files that you have annotated or modified in any way.

This

link https://www.dovepress.com/reviews.php?l=E7fNapP3puYAFdeN1P9Joa391721985&review_id=4526511 will take you directly to your peer review interface (a password isn't required). You will be able to:

- Accept or decline the review invitation
- We provide a structured peer review evaluation form which guides the reviewer through the important points for consideration when evaluating a manuscript.
- Information on Peer Review guidelines
- Download all files

The authors manuscript or existence of a manuscript is provided to you on a confidential basis. An author's manuscript may not be disclosed in whole, or in part, to any third party under any circumstances. In addition, you may not forward this invitation to any third party. It is a personal invitation to you alone.

I thank you for considering our invitation.

If you have any questions do not hesitate to contact me.

Yours sincerely

Mr Ash Oldham

to me

Dear Dr Pattiselanno

Thank you for agreeing to review the manuscript:

Manuscript title: Ethnozoological Study of Animal and Their Products used for Treatment and Prevention of disease practiced by Traditional Healers in Jimma Arjo District, East Wollega Zone, Western Ethiopia.

Article type: Original Research

Author: Dr Abdeta

Journal: Research and Reports in Tropical Medicine

We would appreciate receiving your comments by 21 Jun 2022.

To access the manuscript and complete your review, please click on the following link:
https://www.dovepress.com/reviews.php?l=E7fNapP3puYAFdeN1P9Joa391721985&review_id=4526511

Our expert reviewers greatly contribute to the high standards of the Journal, and we thank you for your participation.

* Your peer review should provide an objective critical evaluation on the technical aspects of the paper.

* Your report must contain a recommendation and a description of your reasons for that recommendation.

* If you believe the paper needs changes to be made before it is acceptable, please make suggestions on how to improve the paper.

Please note:

* Peer-review comments can only be accepted online via our reviewer system. We cannot accept downloaded manuscript files that you have annotated or modified in any way.

* On the review page there is an area for "Evaluation" comments for the author and an

area for "Confidential Comments" comment intended for the Editor-in-Chief only. It is important to be careful to enter your comments in the correct section, so as to keep your anonymous comments intended for the authors separate from any confidential remarks intended for the Editor.

* When you have completed your review, and are ready to submit it to the Editor, click on "Submit."

* Please remember that all communications regarding this manuscript are privileged and confidential.

Many thanks for your assistance with this paper and I look forward to hearing from you.

Kind regards

Mr Oldham

On behalf of Dr Rodriguez-Perez

Thank you for the review

Dr Pattiselanno

Journal Name: Research and Reports in Tropical Medicine
Title: Ethnozoological Study of Animal and Their Products used for Treatment and Prevention of disease practiced by Traditional Healers in Jimma Arjo District, East Wollega Zone, Western Ethiopia.
Submission ID: 347552

On behalf of the author(s) and Dove Medical Press I would like to thank you for providing peer review comments for this manuscript. The time and effort that you have put into this review is most appreciated.

You can now view and download your peer-reviewer acknowledgement certificate here (just click on "Research and Reports in Tropical Medicine" to view the PDF):
https://www.dovepress.com/peer_reviewer_acknowledgement.php?l=E7fNapP3puYAFdeN1P9Joa391721985

To see your current and previous reviewed contributions, you can also go to our reviewer summary page in your account; <https://www.dovepress.com/reviews.php?pa=history&l=E7fNapP3puYAFdeN1P9Joa391721985>

As one of our peer-reviewers you will receive a written acknowledgement for your efforts. In addition, each journal will publish an annual list of peer-reviewers that have contributed to the journal.

I would also like to take this opportunity to invite you to submit a manuscript to one of our journals through our Favored Author Program. This will give you the following benefits on any papers you submit to us:

- * 10% discount on your publication processing fee.
- * Fast-track processing of papers.
- * Rapid delivery of a PDF of your paper for your personal use.

To join this program simply register here https://www.dovepress.com/fav_author.php
Alternatively you can reply to this email. I will be in contact to make arrangements.

These benefits start from the time you join our Favored Author program and will apply to all papers you submit after this point.

Favored Author must be submitting author and use registered email address to receive discount. Discount cannot be applied retrospectively to already submitted papers.

Regards

Jenny Dalton
